Pupil Equity Funding Statement 2024/25

Consultation: We carry out annual consultation with children, staff and families about the best use of our annual Pupil Equity Fund (PEF). This helps us to review PEF initiatives that have taken place and set new priorities for the coming school session. The outcome of the consultation is shared with all stakeholders so that we are transparent and open about how we use this additional funding.

Pupil Participatory Budgeting (PB) Every year we have a PB Committee and are allocated 3% of our Pupil Equity Fund to spend. They learn about community consultation, reducing the cost of the school day, budgeting and poverty. As part of their leadership role, they support learners across the school to understand and evaluate the PB process.
